Please choose a file: No file chosen

Click to upload:

The screenshot shows a Windows "Open" file dialog box. The address bar shows the path: This PC > Documents > lcs > phpmysql > php import csv to mysql > csv. A table lists files with columns for Name, Date modified, Type, and Size. The file "tblDonors.csv" is selected. A red box with the text "Choose a file on your computer to upload to your website" is overlaid on the dialog. Red arrows point from the "Choose File" button in the browser to the dialog, from the "tblDonors.csv" file to the "File name" field, and from the "All Files" dropdown to the "Open" button.

| Name | Date modified | Type | Size |
|---------------|--------------------|----------------------|------|
| tblDonors.csv | 11/30/2018 6:10 PM | Microsoft Excel C... | 3 KB |

File name: All Files
