This game is bad never buy it worst game ever. Couldn't make it through the first few scenes, the main character is just insufferable.. I'm a 30 year old man. I don't usually like cartoons, anime or the like, but this series is spectacular. I enjoy this and the Avatar series almost equally with my kids. The series is fun, playful, intelligent and strays from the simplistic formula of "Bad guys are bad" and have actual continuity, that is to say, there are very few "fluff" episodes that don't contribute to the story. As an audience member I enjoy it when I am treated as if I were intelligent, my kids do too.

Be warned - This is Book 1, a continuation 6 years after the main story arc.

The TV series is on Netflix, please watch or support in your own way if you have the time or resources to do so.

It stays true to the characters (which are just awesome). I really enjoy that the villains aren't one dimensional - there is depth to their madness/evil in most cases. The females in this are attractive and strong, and with a good takeaway message to female body types (being that there is nothing wrong with not looking like a celebrity centerfold).

Honestly after watching the french version the english dub is a little jarring, but not awful. It just loses some expressiveness or exaggeration in the translation or lacklustre voice acting (The french voice actors are far more enthusiastic)

I simply don't have the words to express how much I love this cartoon. Again, 30-something year old man. Child at heart.. if your into 2d beat'm ups you'll love this one.

its done well and on par with any classic nes, snes game.

. The Veggie Scross: Arena.

Better than it sounds.

**Performance is improved.:**

Performance is improved. Space-time breaks are fixed. The garbage is cleaned, the dishes are washed. See you in the SUPAPLEX universe!. **iMprovements.:**

Some improvements for game controllers and leaderboard.
